

IMPORTANT: Investment involves risks. Investment value may rise or fall. Past performance information presented is not indicative of future performance.

The Pando CMS Innovation ETF (the "Sub-Fund") is a sub-fund of the Pando ETF Series OFC (the "Company"), which is a public umbrella open-ended fund company established under Hong Kong law with variable capital with limited liability and segregated liability between sub-funds. The Sub-Fund is an actively managed exchange traded fund authorized under Chapter 8.10 of the Code on Unit Trusts and Mutual Funds. The shares of the Sub-Fund (the "Shares") are traded on the Stock Exchange of Hong Kong Limited (the "SEHK") like stocks.

- The Sub-Fund is not principal guaranteed and your investments may suffer losses. There is no assurance that the Sub-Fund will achieve its investment objective.
- The Sub-Fund employs an actively managed investment strategy. The Sub-Fund does not seek to track any index or benchmark, and there is no replication or representative sampling conducted by the Manager. It may fail to meet its objective as a result of the Manager's selection of investments, and/or the implementation of processes which may cause the Sub-Fund to underperform as compared to other index tracking funds with a similar objective. The Sub-Fund does not guarantee dividend distribution, therefore, investors may not receive any dividend payment.
- Due to the concentration of the Fund's investments in companies involved in Innovative Business, which are characterized by relatively higher volatility in price performance when compared to other economic sectors, the performance of the Fund may be more volatile than that of a fund having a more diverse portfolio of investments. In addition, the performance of the Fund may be exposed to risks associated with different sectors and themes, including metaverse, consumer discretionary, healthcare, fintech, information technology, robotics and artificial intelligence, etc. Fluctuations in the business for companies in these sectors or themes will have an adverse impact on the net asset value of the Sub-Fund.

Please note that the above listed investment risks are not exhaustive and investors should read the Prospectus and the Product Key Facts Statement in detail before making any investment decision, including product features and risk factors. Investors should not base on this material alone to make investment decisions. This document was prepared by Pando and has not been reviewed by the SFC. Issuer: Pando Finance Limited.

# Pando CMS Innovation ETF (3056.HK)

## Objective

The Pando CMS Innovation ETF's investment objective is to achieve long term capital growth by primarily investing in companies which are directly or indirectly involved in the provision of innovative products and/or services ( "Innovative Business" ).

## Strategy

In seeking to achieve Pando CMS Innovation ETF's investment objective, the Sub-Fund will invest primarily (i.e. at least 70% of its Net Asset Value) in equities of companies which are directly or indirectly involved in Innovative Business. Innovative Business refers to companies that are leaders in Innovation which are able to take advantage of new technologies, led by a management team with the vision to identify market needs that have yet to be fully expressed, and benefit from new industry conditions (such as secular changes in the way people communicate and behave) in the dynamically changing global economy.

## Target Themes

The following is a non-exhaustive illustration of companies that may be directly or indirectly involved in Innovative Business in which the Sub-Fund will primarily invest:
